

Facebook Smart Card

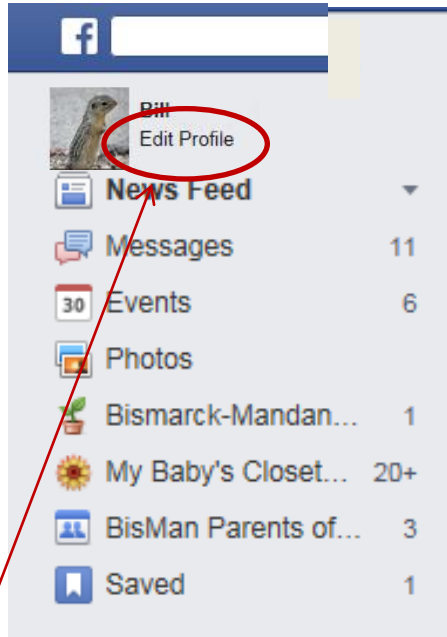

Basic Guidelines:

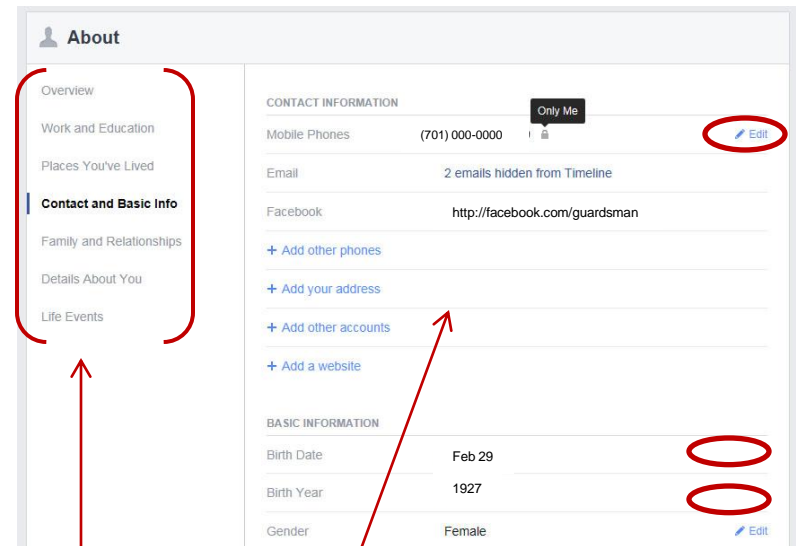

- Only establish and maintain connections with people you know and trust; review your connections often.
- Assume that ANYONE can see any information about your activities, personal life or professional life that you post and share.
- Ensure that your family takes similar precautions with their accounts; their privacy and sharing settings can expose your personal data.
- Use caution when posting images of you or your family. Be aware of your surroundings, to include identifiable locations, military affiliations and any other personal security vulnerabilities. It's highly discouraged to use geo-location tags (geo-tagging).
- Use secure browser settings when possible and monitor your browsing history to ensure that you recognize all access points.

Click the Facebook
“f” to get to “Profile”

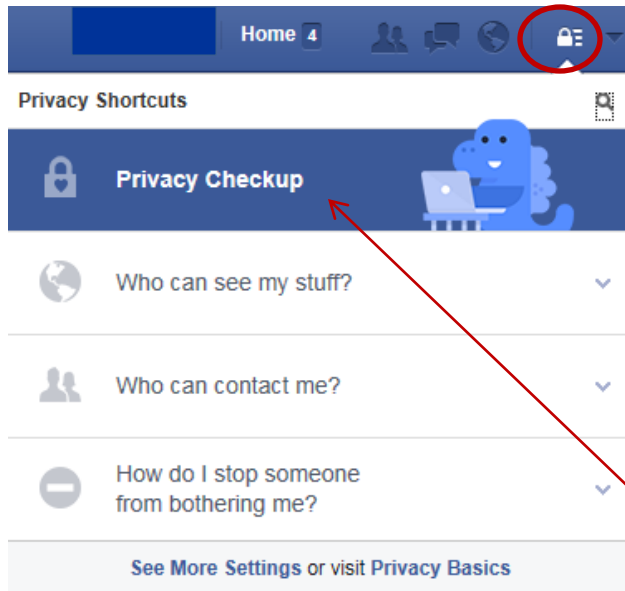

Take the appropriate steps to ensure that
your profile information is visible to ONLY
people of your choosing

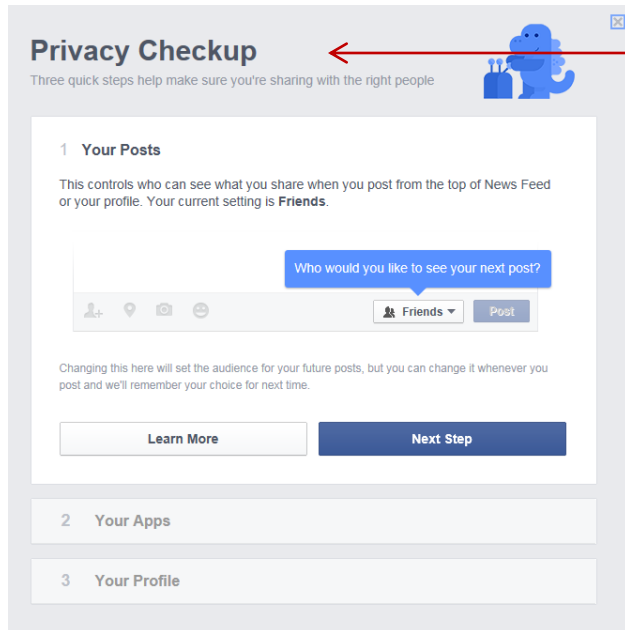

Hover over each data field to edit
information/select your audience

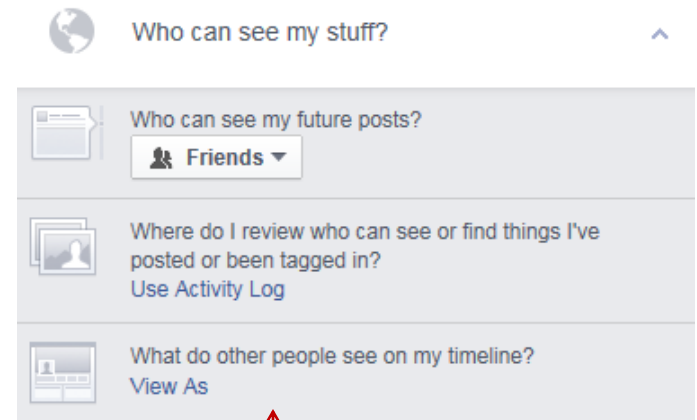

Review/edit each category in your profile

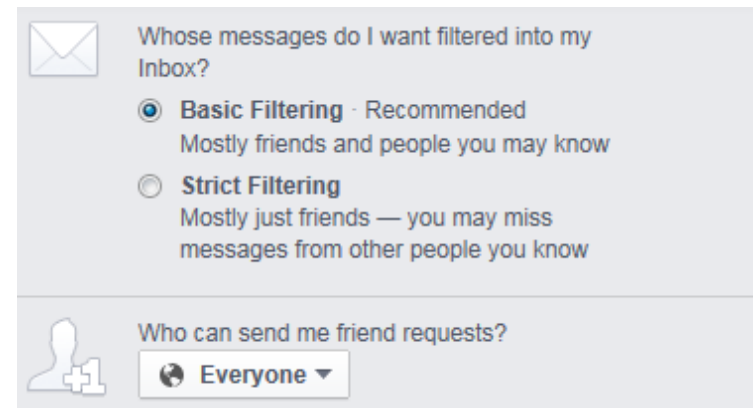

Manage privacy settings here

New feature allows user to easily change all privacy settings in a step-by-step process

OR the user can manually change settings in each category

Apps, Websites and Plugins

Lets you use apps, plugins, games and websites on Facebook and elsewhere.

Enabled.

Edit

Apps Others Use

People who can see your info can bring it with them when they use apps. Use this setting to control the categories of information people can bring with them.

Edit

Old Versions of Facebook for Mobile

This setting controls the privacy of things you post using old Facebook mobile apps that do not have the in-app audience selector, such as outdated versions of Facebook for BlackBerry.
